

Fishing Fleet Profiles 2011 Addendum

Fishing Fleet Profiles 2011 Addendum

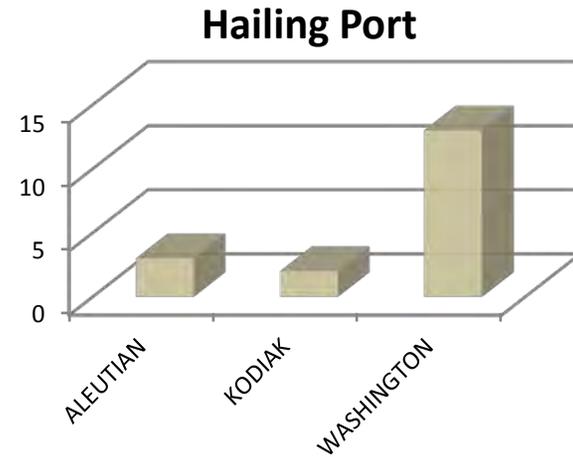

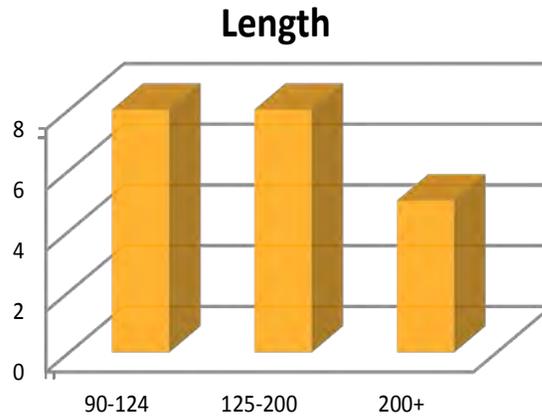

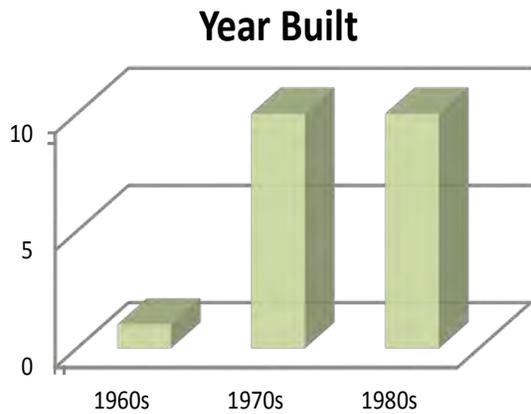

This is an addendum to the *Fishing Fleet Profiles* report published in April, 2012. This addendum profiles the same fleets, but examines catch data and vessel registration data from vessels that participated in the 2011 federal fisheries of groundfish, crab, halibut, and scallops and assigns vessels to fleets accordingly. One notable fleet change occurred, the Amendment 80 fleet was updated to exclude Catcher Vessels delivering to Amendment 80 vessels. In the original 2010 report the Catcher Vessels delivering to Amendment 80 vessels were included in the fleet. Similar to the original *Fishing Fleet Profiles* report, the purpose is to provide the public with readily available and accessible information about the fishing fleets prosecuting federally managed fisheries off Alaska. The original document as well as information on the management of fleets and fisheries is accessible via the North Pacific Fishery Management Council's website, www.alaskafisheries.noaa.gov/npfmc.

Michael Fey

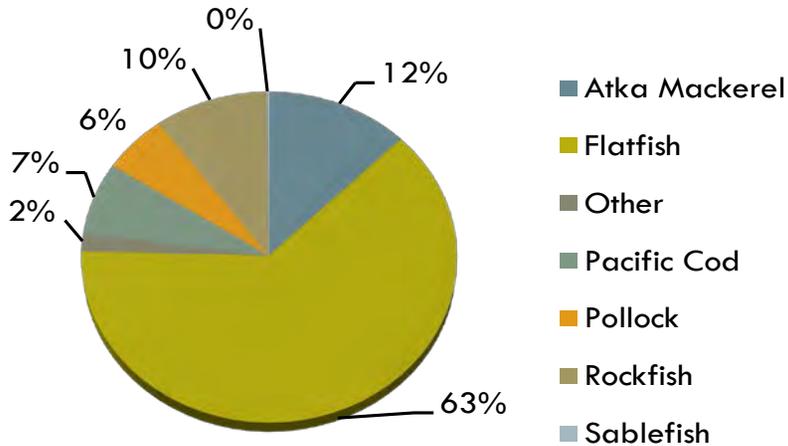

This report was prepared by Michael Fey (PSMFC-AKFIN) and Rob Ames (PSMFC-AKFIN), based on the fleet logic of the *Fishing Fleet Profiles* prepared by David Witherell (NPFMC), Michael Fey (PSMFC-AKFIN), and Mark Fina (NPFMC).

About the Cover: This picture was taken from the stern of the F/V Pacific Sun leaving the dock of Westward Seafoods in Dutch Harbor. The F/V Pacific Sun was part of four fleets in 2011, the halibut IFQ, sablefish IFQ, groundfish pot vessels, and BSAI crab fleet.

Amendment 80 Fleet

Catch by Weight

**NOTES

Fleet determined by Amendment 80 Official Record, removed CV's delivering to CPs from the fleet, 3 vessels operated as such in 2010. Atka Mackerel catch went down 6% YOY as a percent of total catch.

- *21 total vessels
- *8 vessels are also in the CG Trawl Fleet
- *14 vessels are also in the WG Trawl Fleet
- *1 vessel is also in the AFA CP Fleet

Fishing Fleet Profiles Addendum 10/10/2012

Other BSAI Trawl Fleet

****NOTES**

Fleet determined by a BSAI trawl landing by a vessel not in the A80 or AFA fleets that has a trawl endorsed LLP. Includes CVs delivering to A80 Catcher Processors, 2010 included those vessels in the A80 fleet. Those vessels contributed to the increase YOY of 8 vessels.

- *21 total vessels
- *2 vessels are also in the Groundfish Pot Fleet
- *12 vessels are also in the CG Trawl Fleet
- *4 vessels are also in the WG Trawl Fleet
